## PER-220 - Emergency Response to Domestic Biological Incidents

**April 24-25, 2018 • 8am–5pm each day**  
**Heartland Preparedness Center - Rm 302**  
**2808 N. New York - Wichita, KS 67219**

Emergency Response to Domestic Biological Incidents is a performance-level course designed to help participants safely and effectively respond to a biological incident by using an integrated approach. The course provides detailed information about various biological agents and possible methods of dissemination - whether naturally occurring or intentional. Participants will identify appropriate assessment and response actions and will review personal protection, containment measure, and tools that may be accessed during a biological incident.

### Objectives

- Use a baseline knowledge of concepts and terminology associated with biological incidents
- Support the response efforts of all types of biological incidents by selecting appropriate resources for information
- Apply knowledge about biological agents and diseases to their response roles during a biological

incident

- Recognize equipment and processes associated with producing, preparing, and disseminating bioterrorist agents
- Select the appropriate response tools and protection measures to safely and effectively respond to a biological incident
- Create plans to recover from a biological incident
- Effectively support a response to a biological incident

### Prerequisites

Participants in this course should be mid-level supervisors or emergency responders and planners who respond to Weapons of Mass Destruction incidents. To enroll in this course, participants must be US citizens and must possess or obtain a FEMA Student Identification number (SID).

Visit <https://cdp.dhs.gov/femasid/> to register for your FEMA SID.
